- *EXECUTIVE SUMMARY*
- *FINDINGS OVERVIEW*
- *CVCE DIGITAL ECOSYSTEM*

RESEARCH GOAL

The study aims to understand how operations staff handle CVCE file processing and logins, how they navigate manual data entry across systems. It focuses on how customer dependencies, multi-system workflows, and complex tracking structures impact turnaround time and overall operational efficiency.

- Understand the daily reality of the CVCE file login and data entry process.
- Pinpoint system hard-stops and heavy manual workarounds.
- Assess the friction caused by operating across disconnected platforms.
- Evaluate how well the dual-ID structure (CAS vs. App IDs) holds up under high-volume pressure.

USER PROFILE & METHODOLOGY

S.No	Staff Name	Designation	Loan Type	Location
1	Ajay Sharma	SM	CVCE	Vile Parle
2	Dhanalakshmi	OPS/Data Entry	CVCE	Vile Parle
3	Ashutosh	OPS/Data Entry	CVCE	Kalina
4	Vishal	RO	CVCE	Kalina

~60 minute user interview sessions and observation were conducted with Relationship Officers and Operations/Data Entry team at Axis Loan Centers-Kalina, and Vile Parle.

EXECUTIVE SUMMARY

- Leads enter via Siddhi or dealerships with a 60/40 split between DSA and direct channels.
- Operations staff lose significant time manually completing blank forms submitted by customers.
- File login consumes 45 to 60 minutes per application, split majorly across Quick Data Entry (QDE) and Detail Data Entry (DDE) phases.
- Fleet applications mandate the tedious manual creation of individual Child IDs for every single vehicle.
- Minor data discrepancies or missing mandatory PEP declarations trigger absolute system hard-stops.
- Staff intentionally bypass initial bank statement mapping to save time, relying on post-login credit checks to flag issues.
- File status and query tracking rely entirely on manual email communication rather than automated system alerts.
- Delayed MIS batch-entry and manual rate updates cause severe operational bottlenecks during month-end surges.

FINDINGS OVERVIEW

Stage 1: Lead Origination & Document Sourcing

- Leads originate via branch generation (Siddhi app) or direct dealership visits.
- Sourcing volume splits at a **60% DSA** to **40% direct** ratio.
- Document collection relies heavily on **email** and **manual checklists**.
- Customers provide self-attested KYC (PAN, Aadhar), banking records, and ITR.
- A proforma invoice from the dealer is mandatory before file login can proceed. (Note: The proforma invoice acts as the preliminary bill of sale from the dealer, confirming the exact asset details and pricing required to calculate the loan amount).

Category	Description of Requirement	Subject to conditions	Stage at which documents to be provided	Applicant	Co-applicant	Customer/DC
Application Form	Completely filled inclusive of mandatory Applicable Column		Login	FALSE	FALSE	FALSE
	Photograph attached (Pasted and not stapled), cross signed		Login	FALSE	FALSE	FALSE
	Complete Address with Pin Code provided in the Application Form and matches with the address proof		Login	FALSE	FALSE	FALSE
	If the PSL flag is Yes, Udyam Certificate/Land documents to be documented		Login	FALSE	FALSE	FALSE
Mandatory Proof (POI)	PAN Card (Only ID proof)	SVV (Original seen and verified) and self-attestation as per the BAU (Business As Usual) process, wherever applicable	Login	FALSE	FALSE	FALSE
	Passport (Not expired)		Login	FALSE	FALSE	FALSE
	Voter ID		Login	FALSE	FALSE	FALSE
	Permanent Driving License (Not expired)		Login	FALSE	FALSE	FALSE
Proof of Address (Any one DVD to be collected)	Aadhaar Card (Redacted Aadhar and Masked VID No.) Issued by UIDAI (Mandatory)		Login	FALSE	FALSE	FALSE
	Card issued by NALSA (Only signed by office of the state govt)		Login	FALSE	FALSE	FALSE
KYC process	KYC process to be initiated and completed through Siddhi		Login	FALSE	FALSE	FALSE
Stability/Ownership proof	Utility bills which is not more than 6 months old prior to Loan Application month. Utility bill of any service provider (Electricity Bill, Municipal Tax Receipt / Property Tax Receipt (Except Dubai), Title Deed, Copy of Sale Deed, Municipal Water bill, Share Certificate/ Allotment letter (for Co-operative Housing Societies) is acceptable		Login	FALSE	FALSE	FALSE
In case of Sole Proprietorship	Q2 Proof of Existence (Business Proof)		Login	FALSE	FALSE	FALSE
In case of Company	Copy of latest MOA/ADA & Incorporation Certificate		Login	FALSE	FALSE	FALSE
In case of Partnership Firm	In case of partnership firm, Partnership deed / Limited Liability Partnership Deed / Parent agreement Along with all amendments if any		Login	FALSE	FALSE	FALSE
In case of Trust/Society	Sanction Certificate, Trust Deed / Parent Deed, Society Bye Laws with the latest amendments (In case of trust and society along with the borrowing clause)		Login	FALSE	FALSE	FALSE
Divorce detail for Non-individual cases	Shareholding pattern & list of directors on the letter head of the company certified by authorized director		Login	0	0	0
Additional documents for Schools	Student Strength along with fee structure on letterhead. Attested by Authorised Signatory	Documents must be attested by an authorised person of the school	Login	FALSE	FALSE	FALSE
For PEP Cases	Affiliation Certificate/Recognition Certificate		Login	FALSE	FALSE	FALSE
FATCA declaration	Source of wealth details to be provided in the application form		Login	FALSE	FALSE	FALSE
Proforma invoice for all new CVCE cases	FATCA - CRS Declaration to be marked for individuals		Login	FALSE	FALSE	FALSE
Additional documents for Used CVCE	Proforma invoice for the asset to be purchased (not required for Unit approvals) along with Dealer Email ID		Login	FALSE	FALSE	FALSE
Income documents	Copy of invoice / sale purchase agreement Xerox Copy (in case of sale purchase) in case of Refinance/Repurchase of unregistered assets		Login	FALSE	FALSE	FALSE
	Audited Financials of Latest 02 Yrs along with ITR Computation of Income Complete Schedules - Audit Reports With UDIN. (Mandatory for income based program will be required at time of login) GSTT Copies to be collected (Wherever Applicable) Certified pro financial to be documented (As applicable). Latest Form 26AS to be collected for Captive profiles.	This requirement is applicable only for income-based programs at the time of login.	Login	FALSE	FALSE	FALSE
Bank Statement	Last 6 months Banking	Soft copies of documents can be submitted. However, hard copies of only the first and last pages are required, with self-attestation.	Login	FALSE	FALSE	FALSE
Contract Details	Latest Contract Copies (Work in hand, Work completed details and Latest LOI (as applicable))	In the case of contractor profiles, this requirement is applicable at the time of login, wherever relevant.	Login	FALSE	FALSE	FALSE
Fleet List	Signed and on letter head along with date as per prescribed format	In the case of buses, this requirement is applicable wherever relevant.	Login	0	0	FALSE
	Route Permits		Login	FALSE	FALSE	FALSE
Vehicle Ownership Proof	Viability sheet	As applicable	Login	FALSE	FALSE	FALSE
	Proof of Free Finance Vehicle (NOC copy/RC copy of existing free vehicle) - Wherever applicable	At the time of login, a minimum of 5 RC copies is required for NTB (New-to-Bank) clients. However, this requirement can be waived for STA (Existing to Bank) clients.	Login	FALSE	FALSE	FALSE
Additional documents for Used CVCE	For Registrable assets RC copy and insurance is required.		Login	0	0	0
	Copy of invoice / sale purchase agreement Xerox Copy (in case of sale purchase) in case of Refinance/Repurchase of unregistered assets		Login	0	0	0
	Original Invoice/Original NOC/Insurance copy with hypothecation / sale Agreement copy (in case of sale purchase) in case of Refinance/Repurchase of unregistered asset		Pre disbursement	FALSE	FALSE	FALSE
	For Registrable assets RC and insurance with Axis Bank Hypothecation is required.		Pre disbursement	0	0	0
	Annexure for SO, KYC documents		Login	0	0	0

DOCUMENTS CHECKLIST

FINDINGS OVERVIEW

Stage 1: Lead Origination & Document Sourcing

- For refurbished/used vehicles, a separate valuation report must be sourced and manually entered.
- High dependency on customers **causes severe document friction.**
- Customers frequently provide **incomplete data** or sign blank forms.
- Operations staff are forced into a cycle of chasing missing documentation, which creates a **manual bottleneck** in the workflow and stalls output

DOCUMENT: PROFORMA INVOICE

FINDINGS OVERVIEW

Stage 2: Processing & Data Entry

- Pre-login preparation requires **building manual Excel inventory sheets** to tally documents, adding 10-15 minutes per file.
- Core file login is **highly manual, consuming 45 to 60 minutes per application.**
- Staff must operate **multiple disconnected systems concurrently**, with FinnOne acting as the primary tool for data entry and login, and has two major sections to it:
 - a. **QD (Quick Data Entry):** The initial step that generates the basic record in the system.
 - b. **DDE (Detail Data Entry):** After QD, the file lands in DDE. This is the highly manual phase that consumes 30 to 45 minutes per application to enter all specific borrower and asset details.

MANUAL DATA ENTRY FROM PHYSICAL RECORDS

FINDINGS OVERVIEW

Stage 2: Processing & Data Entry

- Strict system hard-stops halt processing for minor discrepancies.
 - a. PAN/NSDL name and DOB must match perfectly (ID/FR validation).
 - b. Corporate entities face mandatory blocks if DIN and CIN numbers are missing.
 - c. Proprietors must now be manually entered as default Co-applicants.
 - d. A Source of Wealth/PEP declaration is mandatory; leaving it blank halts the file.

MANUAL ENTRY INTO MIS

FINNONE: APPLICATION IN QDE & DDE

FINDINGS OVERVIEW

System Architecture: Tracking IDs

- The system architecture splits file tracking into two distinct ID structures:

CAS ID (Credit Appraisal System ID):

- Generated upon initial entry in FinnOne.
- Acts as the processing identifier that physically moves the file through backend queues (e.g., from Data Entry to Underwriting).
- If validation errors occur, the CAS ID is blocked and queue progression halts.

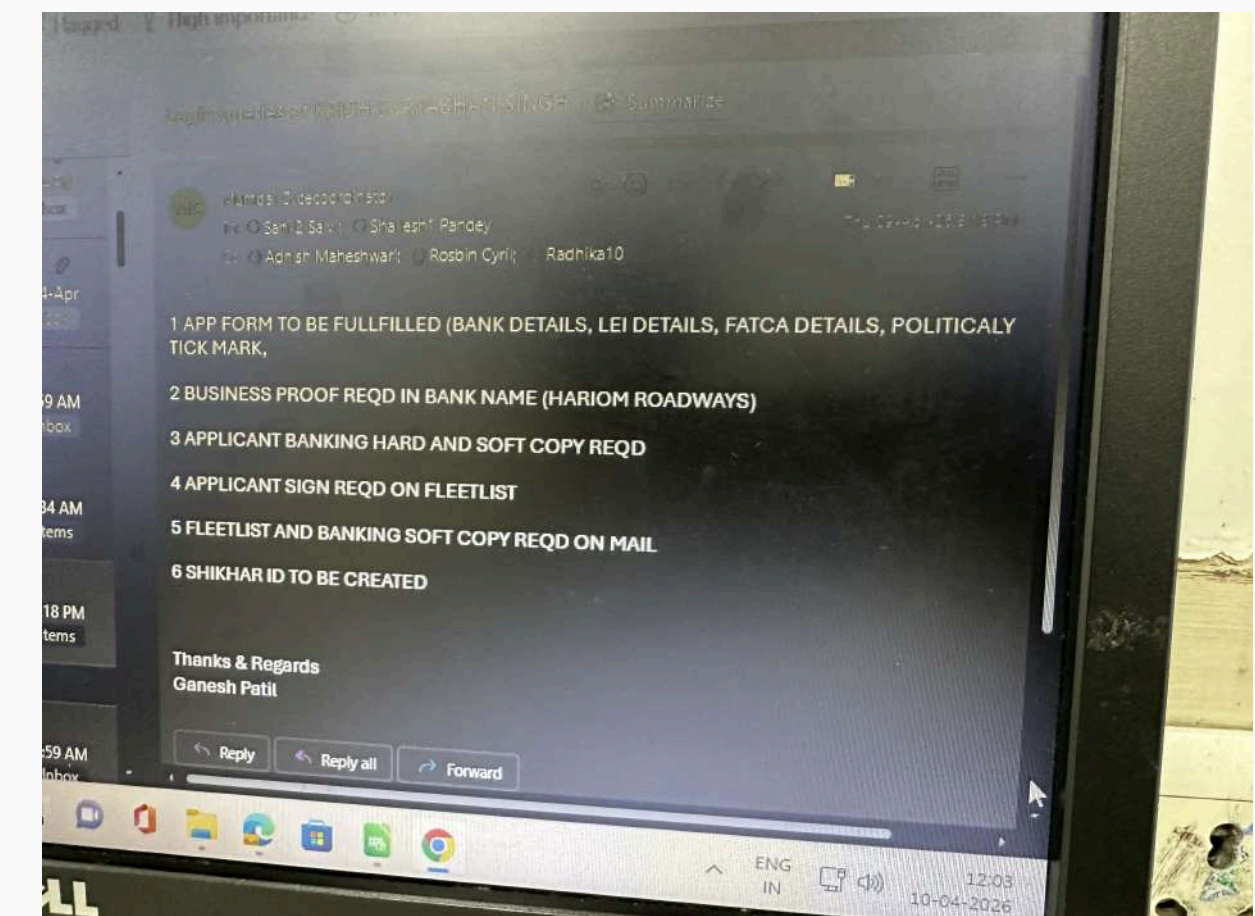

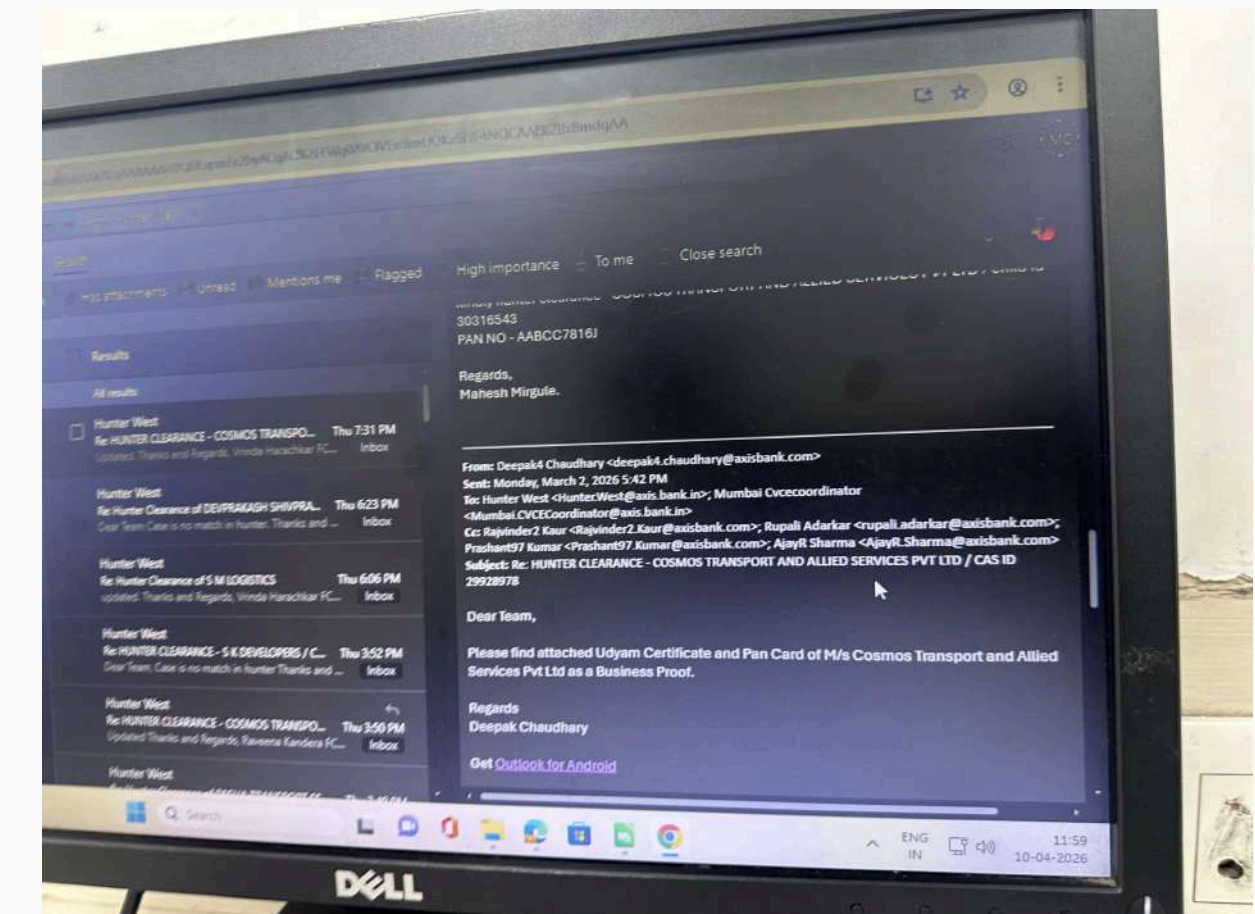

App ID (Application ID):

- Tied directly to the customer's identity (verified via PAN) and dictates the loan structure.
- Master App ID: Assigned to the primary applicant for the overarching loan request.
- Child IDs: Mandated for fleet processing. Following the Master ID, operations must manually generate an individual Child ID for every single vehicle/asset being financed in the fleet.

FINDINGS OVERVIEW

Stage 3: Verification & Deviations

- System logic shift: CIBIL checks are now executed exclusively by the credit team post-login.
 - a. Sales teams previously held pre-login CIBIL access to gauge viability, but rights were revoked.
- At times the staff skip tedious bank statement inputs for standard retail segments to save time. The data is only entered after the fact if the Credit team rejects the file due to a poor credit score.
- Address data matching is the **primary trigger for deviations**.
- Discrepancies between Aadhar addresses and Udyam registrations force credit queries.
- Physical verification is **entirely outsourced to external vendors**.

EMAIL COMMUNICATION FOR DISCREPANCY AND MISSING DOCUMENTS

FINDINGS OVERVIEW

Stage 4: Post-Approval & Manual Tracking

- Post-approval mechanics require manual generation of the Key Fact Statement (KFS).
- Customers must confirm EMI structures (e.g., 36 months) via email.
- Status updates lack automation, forcing operations to draft manual emails with case numbers to notify sales and credit teams of file progress.
- Disbursement Mechanics: Payments are made directly to the dealer.
 - The asset is secured by placing a Hypothecation (HP) on the RC copy.
 - Partial disbursements are allowed based on client delivery schedules (e.g., 5 vehicles now, 5 later).
- Month-End Bottlenecks: Standard 45-minute login times increase drastically at month-end because staff must manually update shifting rates and charges.
- MIS data entry is batched at the end of shifts rather than updated in real-time.

CVCE ASSISTED LENDING- CURRENT DIGITAL ECOSYSTEM

Portal Name	Used for	Field Notes
Siddhi	Lead generation	Utilized by branch staff to log initial leads.
Shikhar	Status ID & Query Routing	Generates a specific Shikhar ID used to convey file status and route operational queries to the Sales Manager (SM) and other staff.
FinnOne	Core Data Entry & Login	The primary system used by operations for heavy data entry and processing the actual file login.
LMS (Loan Management System)	Reference & Validation	Loan Management System; an active parallel system accessed during login to cross-reference loan documentation and details.
Excel	Pre-Processing	Used as an offline buffer to tally documents and verify checklists before initiating the FinnOne login.

Thank You
